

Port Hedland Dust Management Taskforce Report to Government

Public Submission

From: Name Withheld

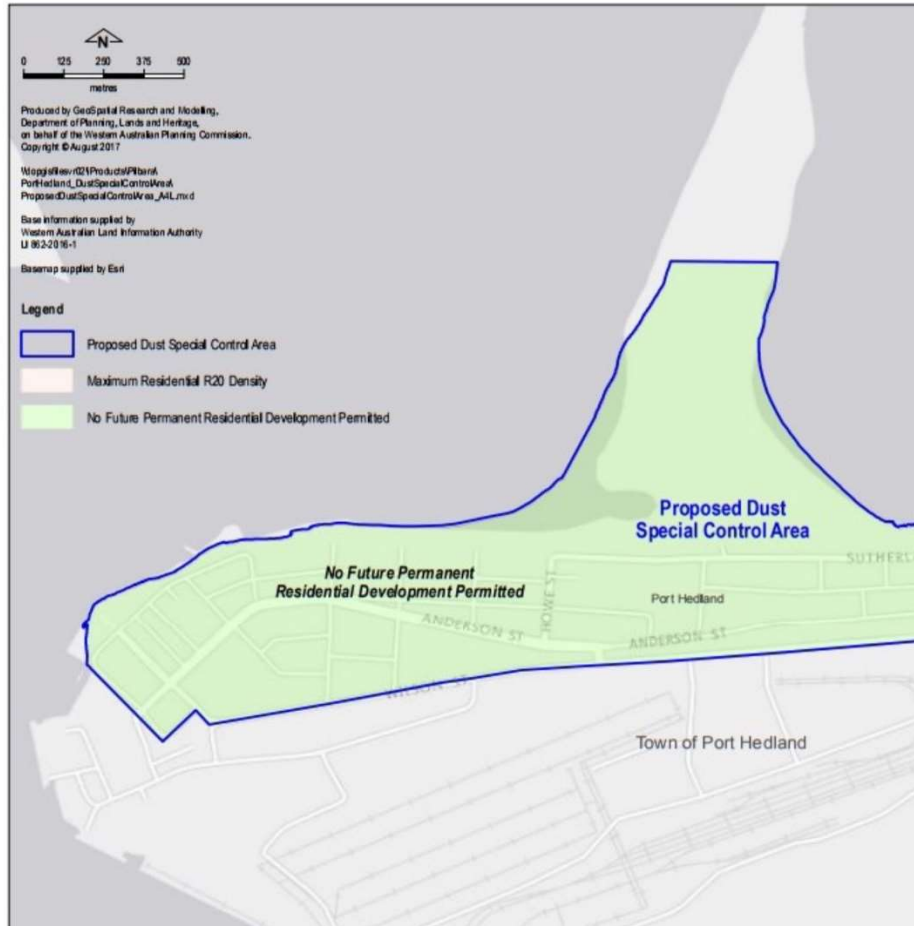

Date: 1 October 2017

Document: Email with pictures

would prevent any further permanent residential development on land west of Taplin Street, and limit sensitive land uses between Taplin Street and McGregor Street/Lukis Street.

Sensitive land uses include developments such as child care centres and aged care facilities.

Port Hedland - Proposed Dust Special Control Area

[7]

It also recommended exporters in the area continue to reduce dust emissions at the port and be subject to more intense risk-based regulation.

The proposed special control area would effectively end [Finbar Group](#) [81]'s plans to develop

Email Text:

Why make people move because of dust when you can just clean the town?

The reason it's dirty is because BHP is polluting the air.

The more they pollute the air the sicker children will get.

Just stop the pollution!

Yours sincerely
